Biography

Agatha Sun DJ · Producer · Artist House Tech House Aquarius Pure Ibiza Radio Born under the Atlantic sun of Gran Canaria, Agatha Sun grew up surrounded by music from her earliest years. Multidisciplinary by nature, she mastered several instruments and developed a voice capable of moving between soul and electronics — a duality that would forever shape the way she understands sound. Her artistic instinct led her to cross borders: from the islands to the electronic rigour of Zurich, where she refined her technique and built her identity as a DJ, and from there to the clubs of London, where house and tech house became her definitive language. The Canary Islands were always her point of return — the island that taught her music needs no borders. Today Agatha Sun has found her sonic home in Ibiza. Every week she hosts Agatha Sun in on Pure Ibiza Radio — a one-hour session that travels from the most organic house to the most powerful tech house. With original tracks and remixes bearing her unmistakable stamp, her philosophy is as clear as her sign: Aquarius. Free, visionary, and incapable of sounding the same way twice.
