Biography

I'm Ramsés Ramírez, a Spanish DJ and producer specialising in House and Tech House. My sound blends infectious grooves, vocals and driving rhythms, drawing inspiration from the roots of House and Funky House.

My musical approach is defined by carefully curated track selections, dynamic sets and a strong ability to read the dancefloor, maintaining my artistic identity while adapting to the atmosphere of each club and event.

I have performed at various clubs and electronic music events across Andalusia and Ibiza, with a notable appearance at LOOP by FABRIK (Madrid).

As a producer, I made my recording debut on Dacusan Records with my first EP, featuring “The Wolf” and “I Feel Dark”, two tracks that showcase different aspects of my musical identity.

My artistic activity also extends to international radio, with DJ sets featured on electronic music stations such as Ibiza Stardust Radio and BeachGrooves Radio.

Available for club, festival and event bookings across Spain and throughout Europe.
