Biography

Traumtherapie is a Hard Techno DJ and producer from Frankfurt, Germany, whose passion for electronic music has been ongoing since 2010. What began as an exploration of melodic techno evolved into something far more relentless: a signature sound that now spans Hard Techno, Hard Bounce, Hard Dance and Trance, raw, dark and engineered for maximum dancefloor impact at 150–160 BPM.

As the founder of his own label Illusions, Traumtherapie has built a catalogue of over 90 releases on 18+ labels, including MOTZ, Reload Recordings, Obscuur, EONS and Feel Free Records. His tracks have received support from Sara Landry and Rebekah.

On stage, he has played high-energy sets across the Rhine-Main region and beyond, from Tanzhaus West Frankfurt, MTW Offenbach and Level 6 Darmstadt to the Feel Free Recordings showcase in Paris and the camp stages of Nature One. He has shared line-ups with Pappenheimer, DJ Rush, DLV, Jay Lumen and Lokier.

For him, music is the moment where the head switches off and you simply let go. That is exactly what he wants to bring to the dancefloor.
