Biography

archie is the 22-year-old multi-instrumentalist and producer redefining modern pop. Building a fiercely loyal community of over half a million followers, he has converted online momentum into 25 million streams. His explosive live shows have taken him from Glasgow’s King Tut’s and the Barrowlands to a sold-out headline show at SWG3. His debut mixtape, 40PROOFTEARS, blends melancholic songwriting with alt-rock energy, featuring producers Erik Ron and Jake Gosling. Beyond his own artistry, archie is shaping Scotland’s next wave of talent, producing breakout artists including Scratchcard Wednesda and Ben Walker. A true self-made, multi-hyphenate force.
