Biography

Bass-heavy, sultry, and truthful.
A few words that come to mind when describing BOBBI’s debut EP Harsh, premiered by London’s Wonderland magazine. Its alt-pop electronic production and pop-forward songwriting are a nod to the likes of Grimes, FKA Twigs, and Caroline Polachek.
Born from the creative synergy between BOBBI and genre-bending producer Model 86, Harsh emerged as a bold exploration of emotional honesty and experimental sound. Recently, BOBBI ventured deeper into the electronic realm with techno artist KLOUD on Set Me On Fire, and with HARSH Remixed — a reimagining of her debut EP that fuses vulnerability with experimental bass music, featuring electronic artists Sakr, XL.IKS and Automata.
