

Chronic Jizz

Underground rave

Contact Information

Biography

I'm Chronic Jizz, an experienced UK rave DJ and producer with previous appearances at Sunrise Festival, Beatherder, Glastonbury, Symmetry, Secret Garden Party and Maui Wau.

Coming from the Norfolk free-party scene, my sound is rooted in old-school hardcore breakbeat, jungle techno, rave stabs and underground 4x4. I also produce my own tracks and release mixes through my Jizzy Chronicals series on SoundCloud.

I'm currently looking to secure festival and sound-system bookings for summer 2027, particularly on stages supporting underground UK rave and electronic music.

I'm happy to travel and play alongside other electronic genres, while keeping my own sound and identity intact.

If you've got any suitable slots available, I'd love to be considered.
