Biography

Carlos Soares - Dj Cs
Based in Lisbon, Carlos Soares, known artistically as CS, began his journey into electronic music in the late 1990s, driven by a deep passion and fascination for this musical universe.
In 2003, he made his public debut as a DJ in Viseu, marking the beginning of a journey shaped by performances at various events and the exploration of different electronic sounds across Portugal.
Over the years, balancing music with the organisation of local events, he gradually developed his own musical identity, always embracing discovery, experimentation and evolution.
Today, his sets focus on Progressive House, while staying true to the influences that shaped his musical journey and remain part of his sound: Indie, Acid, Breaks and Techno.
More than simply playing music, CS aims to create atmospheres, build connections and deliver memorable experiences. Each set is conceived as a sonic journey, where energy, emotion and connection with the audience come together, taking people on a unique musical experience.
