Biography

Full time professional DJ Neil built his career in London’s West End, performing at prestigious venues and for blue chip corporate clients across Europe, including national events for Pepsi, while also establishing a strong reputation on the nightclub circuit. With in excess of 4,000 events to his name, Neil now brings his wealth of knowledge and experience back to his home in Gloucestershire and the Cotswolds, offering exceptional wedding and corporate entertainment. Trusted by the area’s finest venues, he brings care, professionalism, and a passion for making each event special. Your night is all about you. I’ll play exactly what you want, tailored to you and your guests. I present in black tie, bringing professionalism to your event. Music is at the heart of every wedding or event we provide our professional DJ services for. We always encourage clients to send a wish list of memorable tunes they want included, and we’ll build on that foundation. I will then use my creative skills to mix in other songs and genres that complement the vibe, ensuring everything flows seamlessly from start to finish. You’ll have complete control over volume levels, and we’re more than happy to talk through ideas, special moments, or questions before the event. On the day, I’m fully flexible, always welcoming requests to ensure the playlist matches your vibe. With a wide genre range and years of experience, I read the room expertly, keeping the dance floor alive and the energy flowing. Lighting is essential for setting the perfect atmosphere, and precise synchronization is key. Using a DMX control system, we craft vibrant, choreographed lighting shows that energize the dancefloor and the entire venue. Our ultra bright, versatile Chauvet wireless LED uplighters feature removable, rechargeable batteries giving 24/7 of operation. Fully waterproof for both indoor and outdoor use, they can beautifully transform the atmosphere of your venue with rich, vibrant colour. Each uplighter also includes interchangeable covers in gloss white or matte black to seamlessly complement your venue décor. We pair them with Chauvet professional LED pix bars to elevate the dance floor.
