Biography

FADISM is a DJ developing a sound built around high-energy hard house, bouncy trance and house, with plenty of groove, euphoria and feel-good energy.

My sets are fast, fun and unpredictable. I love mixing fresh underground sounds with recognisable vocals, throwbacks and those unexpected moments that instantly connect with a crowd. For me, it’s not about staying inside one genre, it’s about keeping the energy moving and creating those moments where everyone just lets go.
