Biography

I'm back and the tank is officially topped up. The FEB 2026 MASHUP PACK has officially cleared the lab. This isn't just a folder of files; it's a full-night roadmap. I've engineered this crate with a heavy focus on the strategic warmup—starting with those deep, rhythmic Afro-house grooves to set the temperature before red-lining it straight into peak-time tech house bangers. From high-energy floor-fillers to those TikTok-ready flips your crowd is already humming, these edits are built for fast hands, quick transitions, and pure festival energy. Remember: What you do today shapes your tomorrow. Let's make the future loud.
