Biography

Stereo Bitch
Stereo Bitch is a female-led DJ collective and event brand delivering high-energy house, vocal house and underground electronic music across some of the UK's most respected club and festival venues.
Founded with a passion for creating inclusive, feel-good dancefloor experiences, Stereo Bitch has built a growing reputation through performances at Manchester's iconic Canal Street venues, Liverpool's renowned Freeze Hi-Fi events, and internationally in Ibiza at legendary venues and boat parties. The collective combines uplifting vocal house, classic dance anthems and underground electronic grooves, creating sets that connect with diverse audiences and keep dancefloors moving from start to finish.
Led by experienced female DJs with a strong commitment to championing women within electronic music, Stereo Bitch brings professionalism, energy and authentic club culture to every event. Their performances blend technical skill, crowd connection and carefully curated music journeys that appeal to both house music purists and commercial dance audiences alike.
Whether performing at Pride celebrations, club events, festivals or international showcases, Stereo Bitch consistently delivers memorable, high-quality experiences that celebrate freedom, diversity and the unifying power of dance music.
