Biography

Born and raised in the sunny south of Germany and now based in Berlin, Jabuka has been behind the decks for over 17 years, bringing his distinctive blend of tech house, deep house and melodic house to clubs and dancefloors.

From his early days of banging on pots and pans to playing drums, piano and eventually discovering electronic music, rhythm and melody have always been an integral part of his life.

His sets are driven by infectious grooves, hypnotic melodies, pulsating basslines and carefully crafted transitions, creating a dynamic journey between deep, emotional moments and raw dancefloor energy.

Constantly exploring new sounds and refining his musical identity as both a DJ and producer, Jabuka follows his intuition rather than musical trends.

With his contagious energy behind the decks, one thing is certain: a decent level of physical fitness is highly recommended.

Performance Details

Typical Set Length: 90 - 180 minutes
