Biography

From South Africa but operating out of Madrid from 2026, BRESLIN is a DJ and electronic music artist whose work spans Aro house to tech house and techno. Drawing on a wide sonic palette, BRESLIN incorporates elements of his palette into dynamic soundscapes built for the dance floor. This blend of driving rhythms and hypnotizing textures defines an evolving performance style that connects modern tech house grooves with the raw energy of underground techno. By navigating these diverse styles, BRESLIN creates tailored sets that highlight both heavy electronic patterns and intricate percussive elements, establishing a distinct presence within Madrid's electronic music scene and beyond.
