Biography

Hailing from the remote northern community of Dawson City, Yukon, and now based in Whitehorse, John from Dawson is an emerging hip hop artist with a drive to create and perform. Also known as JFD, he has taken his music from a small town to stages across the country and in Europe. His songs reflect his life in the North, delivered with an uplifting and passionate approach to living. Musically, JFD combines the relaxed, feel-good rhythms of Boom Bap with the high-energy bounce of Drum and Bass, creating a distinct sonic backdrop for his lyrics. Whether playing for local crowds or international audiences, every performance is designed to be an authentic, engaging experience that connects with listeners and leaves them wanting more.
