Biography

Meet the Proton teamWe are scientists, engineers, and specialists from diverse backgrounds, drawn together by a shared vision of protecting freedom and privacy online.Join usConnect on LinkedIn(new window)We are committed to creating trusted ways for everyone to be secure online and in control of their information at all timesOur valuesPeople over profitWhether serving the Proton community or the broader world, we put people first. We will always put making a positive impact before profits.Proton is independent, neutral, and does not have venture capital investors. Our primary shareholder is the non-profit Proton Foundation.Do what is rightWe believe doing what is right is a competitive advantage. Our company culture empowers us to do what is right and to do work that we can truly be proud of. We aim to be a tech company with a conscience.Science is our foundationProton was founded by scientists, and science is part of our DNA and culture. We believe in technical excellence, rigor, and peer review. Integrity, honesty, and transparency are core values.We believe in privacyWe believe that privacy is a fundamental right and an essential part of being human. Without it, there can be no freedom. Privacy is a deeply held belief that guides all that we do.Together it’s possibleWe believe in collective strength. Our mission can only be accomplished by working together with our community. Together, we are building a better internet for future generations.See job openingsConnect with us on LinkedIn(new window)Meet our global teamProton has more than 600 employees representing over 50 nationalities, supporting over 100 million user accounts.
