Biography

bio 2026
Lady Maru is a relentless force in the international hard dance underground, delivering an uncompromising sonic assault strictly within the 160–175 BPM territory. Stripping away all boundaries, her high-voltage signature sets are a furious blend of raw Industrial Hard Techno, with a touch of Schranz, old- school Hardcore, and dirty Acid.

Emerging from a deep counter-culture background in punk and noise arts, she translates that pure, anti-conformist energy directly onto modern warehouse dancefloors. As a core fixture in Italy’s hardest clubbing circuits—including her regular high- profile appearances at Rome's Cieloterra and global platforms —she has proven an unmatched ability to control and obliterate high-velocity dancefloors.

With her past and upcoming releases, Lady Maru is fully scaled for international outbound touring, bringing unmatched authority, precision, and peak-time or closing destruction

Performance Details

Typical Set Length: 6o minutes live, 2 hours dj
