Biography

MAN1K is a Ukrainian witch house producer and DJ who clawed his way back from the underground in 2023 - not as an artist seeking recognition, but as something that refused to stay buried. Born from the collision of Eastern European darkness and the global occult tradition, he doesn't produce music - he exhumes it, dragging raw personal mythology through layers of distortion and shadow until it breathes on its own. He has crossed thresholds that don't allow return, and that passage lives in every frequency he conjures - heavy, irreversible, corrosive in the way only truth can be. They tried to contain what he carries. It didn't hold. The question is not whether you're ready for what returns. The question is whether you ever were.
