Biography

Hi I'm Mark my Dj name is NRG I started my journey playing on pirate Radio RCR FM and Dream FM I have played at Bars and Restaurants last new years eve at Iconic Steak and Lobster House in Benalmádena
Town which went really well and the people loved it. I have played nany Private parties also I want to go pro it's always been a dream of mine. I'm a House/Tech House DJ but recently I changed my style to Progressive House which is my love. I love all formats of house music and love playing them all. I spend days hours and weeks searching and building sets and I love it. It's not about fame and fortune for me it's a pure passion for music and to give the people the best time of there lives and to give them a night they will not forget. I bring energy and Passion in my music taking people on a journey of sound up and down playing with the wide and amazing music from amazing Producers.

My set was recently played on Ibiza Stardust Radio and I was offered a residency on the Radio station.

This is a link to my latest set with more to follow soon.
