Biography

MONTANA is a DJ and producer from Palermo, Italy, shaping a signature sound where groove-driven tech house, dark rhythms and unexpected drops collide. Born in 2001, he began playing at 20 and quickly became a familiar face across the local scene, performing in the most influential clubs of his city.

His rise accelerated through a blend of powerful original productions, distinctive mashups performed live, and the explosive presence of his videos on social media. This opened the door to gigs across Italy, where his sets stand out for their tension, release, and constant movement — always pushing the crowd to the edge.

MONTANA’s style draws inspiration from the new wave of club disruptors like, blending hypnotic rhythms with bold basslines and drops designed to surprise.
