Biography

MURRA – Biography

Murra is a music project from Valdivia, Chile, led by Antonia Pereira, a composer, singer, and producer. Emerging in 2022 as a solo indie pop project, Murra evolved into a band in 2024, expanding its musical identity and sound.

Their music blends indie pop, pop, rock, and electronic influences, incorporating synthesizers and rhythms inspired by house and techno. Through this combination, Murra creates a distinctive sound that explores different ways of connecting music and emotions.

Their songs explore themes such as love, human connections, personal experiences, and the sensations that emerge from living in the city. Their musical approach brings together intimate emotions and danceable rhythms, combining pop melodies with electronic atmospheres and energetic beats.

After more than four years of musical exploration and creative development, Murra presents *Pulsos Perdidos*, an album that brings together this journey and reflects the sounds, emotions, and experiences that have shaped the project.
