Biography

QNTN Hmm. QNTN is an open-format DJ and emcee known for reading the room first and building every set around the crowd in front of him. His sound blends deep and tropical house, high-energy EDM, Latin, pop, hip-hop, throwbacks, and singalong favorites into seamless, high-impact sets that feel personal, unpredictable, and alive. With a host’s timing and a performer’s instinct, QNTN knows when to guide the moment, when to let the record breathe, and when to push the energy higher. From nightlife and private events to brand activations, festivals, and hosting, his goal is simple: keep people moving, keep them connected, and leave them talking about the night after the lights come up.
