Biography

schwesta_ela s a rising female DJ and newcomer on the scene, bringing a fresh and unapologetic energy to the decks. She started with private parties and gigs in the small town Marburg and quickly made her way onto the scene - with this year’s Fusion Festival marking an exciting milestone in her career.

Her sound is a fluid, high-energy blend of Trance and Bounce, spiced up with influences from Hip-Hop and Acid. Expect fast, filthy and unapologetic sets, ranging somewhere between 150 and 165 BPM. Playful, fierce and full of attitude, her selections are made for everyone who wants to keep moving, shaking ass and losing themselves on the dancefloor. And just when you think you know where things are going, there's always a surprise waiting around the corner.

Beyond the music, schwesta_ela believes in the importance of female representation within the electronic music scene. She wants to contribute to a more diverse and inclusive club culture, creating safer spaces where everyone feels welcome, respected and free to be themselves.
