Biography

snayder — dj & artist bio

my name is snayder-i’m a dj originally from machala, ecuador, in latin america, currently based in europe with the goal of connecting with new people-promoters-djs-and event organizers-while discovering new opportunities within the electronic music scene

i mainly focus on tech house-house- and indie house over the past few years- ive been developing a solid and recognizable sound that represents my identity as an artist-i love music with groove-energy-and hypnotic rhythms the kind of sounds that keep people moving their heads and dancing all night long

beyond djing- im passionate about creating content and building a strong connection with people- i believe that being an artist is not just about playing music behind the decks-its also about showing your personality- experiences-and making people feel part of something

im currently part of insane beats an established event promotion company in ecuador through this connection-ive had the opportunity to work around international artists and meet names such as franky rizardo- maté dufour-gordo-seth troxler-héctor couto-and most recently- mat joe

ive performed at different types of events including club nights-after-parties-and underground raves some of the events and venues ive been part of include nuit machala-the rooftop machala-sainté machala- and insane beats events in ecuador

im also interested in building international connections and creating opportunities for collaboration i can contribute not only as a dj but also by helping bring international artists to ecuador through

my network and connections with promoters back home id love to establish a two-way relationship with people in europe sharing opportunities artists and experiences between both scenes

for me the best parties happen when there is a real connection between the dj and the crowd i dont want to simply play music for people i want to be part of the atmosphere share the same energy and create moments that people remember
