Biography

Megs and Paul, who have been playing together in Sweet Ophelia for 2 years, created Little Wicked with the intent to make their gigs not just entertaining, but also an unforgettable conceptual experience. They envisioned Little Wicked as more than just a band—it’s a dynamic fusion of powerful vocals, engaging stage presence, energetic and experienced musicians, audience participation and a set list designed to keep audiences on their feet. With the incredible talents of Tommy, Pete and Murray completing the line up, their chemistry honed over years of performing together, brings an infectious energy to every show.

Little Wicked blends genres seamlessly, delivering everything from ballads to high-energy rock anthems. Their passion for music and connection with their audience is at the heart of every performance, making each gig feel like a unique event.

Whether it’s an intimate venue, a packed function, pub or festival stage, Little Wicked’s goal is simple: to leave the crowd buzzing long after the final note.
