Biography

The new project from Asher Bates, guitarist of Aussie DIY punks Dr Sure's, UNIT are an off-kilter, experimental swamp rock band from Naarm. Their sound, like some melding of Polvo and The Drones, features intricate and distinctive guitar work paired with emotive vocals and rich lyricism. Having only played their first show in March the band have since shared bills with the likes of Party Dozen, Georgia Knight, Romy Vager and Dartz (NZ) to name a few. UNIT released their debut single 'Rachel' in Oct 2026.
